ITINERARY:

25 & 26 May 2027 – Moremi Game Reserve

Dumela / Hello! Welcome to Botswana!" Upon arrival at Maun Airport – kindly make your way to the Mack Air check-in counter inside the terminal. The friendly Mack Air staff will check you in for your flight into Moremi.

This flight gives you a fish eagle's eye view of this amazing ecosystem called the Okavango Delta. Upon landing at the airstrip, your guide will be waiting to transfer you to your mobile camp where you will enjoy afternoon tea in camp. The friendly, attentive staff will help you feel immediately at home and brief you on what to look forward to on your safari. The magic of a mobile camp becomes apparent as the sun sets and you enjoy drinks around the fire before a starlit dinner and a great night's rest after falling asleep to the sounds of the African bush.

Spending our first two nights camping in the Xakanaxa / Third Bridge area, we explore the surrounding wilderness on game drives during the day. The Moremi Game Reserve protects around a third of the entire Okavango Delta ecosystem – some 5 000km2 (1 930 square miles).

27 & 28 May 2027 - Khwai area of Moremi Game Reserve

Following an early breakfast, your safari team breaks camp and you'll set off toward Khwai, enjoying a scenic journey with a bush picnic lunch en route. The Khwai River marks the boundary between the Moremi Game Reserve and the Khwai Community Concession, a wildlife-rich area known for its diverse ecosystems. We'll spend the next two nights camping in the Khwai area, with daily game drives to explore the stunning Khwai floodplains. A highlight of your stay will be a 2½-hour mokoro excursion, offering a peaceful and immersive way to discover the region's channels and lagoons in a traditional dug-out canoe.

29 & 30 May 2027 - Savute within the Chobe National Park

We head further north en-route to Chobe National Park, were we spend the following two nights camping at a pristine bush campsite in the Savute region and exploring the dry landscape on game drives. Savute is an area that can change dramatically, with the character of the place changing completely depending on the flowing or drying up of the Savute Channel. In 2010, water from the Savute Channel reached the Marsh for the first time in three decades (after a long dry period during which resident lions learned to prey on elephants coming to drink at isolated waterholes). The presence of water can transform these dynamics and the only way to find out what will happen next, is to visit Savute with us and see for yourself!

31 May & 01 June 2027 - Chobe River Front within the Chobe National Park

Leaving this parched landscape, we continue our journey north to the contrasting Chobe region of the park. We spend the last two nights camping in a wilderness campsite near the Chobe River, exploring the riverbanks and surrounding flood plains on game drives. On Day 8 you will enjoy an afternoon boat cruise on the Chobe River which departs from Kasane.

02 June – Kasane

Following breakfast and a short game drive your safari will end in Kasane at around 10:00am.
